

Optoma TS400

OPTOMA TS400

The TS400 DLP has 2200 Ansi lumens, a contrast of 2000:1 and an SVGA 800 x 600 resolution. The projector can illuminate a picture width of up to 408 cm well thanks to the 2200 Ansi lumens. In room light, however, the image width should ideally be less than 272 cm. The operating noise of just 28 decibels makes the projection quiet. The model was built by Optoma in 2006 and is no longer current.
