

Optoma TX700

OPTOMA TX700

The standard portable TX700 DLP has 2200 Ansi lumens, a contrast of 2500:1 and an XGA 1024 x 768 resolution. An image width of up to 408 cm is possible. However, the image should be smaller in room light. We recommend max. 272 cm. With only 28 decibels of operating noise, the model is already very quiet compared to others. The projector was launched in 2006 and is no longer sold by the manufacturer.
