

Optoma ZH300UW

OPTOMA ZH300UW

The Optoma ZH300UW laser DLP projector has 2700 Ansi lumens, a contrast of 2000:1 and an HDTV 1920 x 720 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The integrated media player can play files directly. The horizontal and vertical keystone correction provides leeway when setting up. With a projection ratio of just 0.25:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 50 cm away from the screen. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. This model is no longer offered by Optoma.
