

Optoma ZU500TST -W

OPTOMA ZU500TST -W

A brief introduction to the ZU500TST -W: The Optoma stationary 3D laser DLP projector offers 5000 Ansi lumens, a contrast of 300000:1 and a WUXGA 1920 x 1200 resolution. The lifespan of the laser is 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. The integrated lens shift gives freedom when positioning the projector. The projector is equipped with a microphone jack plug and 10W speakers, so no additional speakers are required for presentations or training courses. The projector can illuminate images up to 718 cm wide thanks to its 5000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 479 cm. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Playing 1080P and 3D is also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. At 28 decibels, the projector is very quiet compared to other projectors. The projector was launched in 2018 and is no longer sold by the manufacturer.

Brief Introduction Beta 2.5

Display Type
