EAN/UPC:796435440978

OPTOMA ZU650+

The Optoma model ZU650+ is a DLP laser projector with WUXGA 1920 x 1200 resolution and a contrast of 2000000:1. Due to the laser, the projector is specified with 20000 hours of light life, which is over 13.7 years with a daily viewing time of 4 hours. The integrated lens shift gives freedom when positioning the projector. An image width of up to 718 cm is possible, if the image width is smaller (we recommend max. 479 cm), rooms with residual light are also no problem. It is also Full HD 1080P and 3D compatible, meaning it can even project Blu-rays onto the ceiling thanks to 360° projection. It was launched in 2017 and is no longer offered by the manufacturer Optoma.
