

Overmax Multipic 5.2

OVERMAX MULTIPIC 5.2

With the Multipic 5.2, manufacturer Overmax offers an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 4000:1. Thanks to the LEDs, the projector has a specified light life of 50,000 hours, which would be equivalent to over 34.2 years at 4 hours per day. The projector is equipped with an integrated media player, so playing files directly will not be a problem. The horizontal and vertical keystone correction provides flexibility when setting up. Since Overmax specifies the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. The projector can illuminate a 208 cm image width well. However, if there is ambient light in the room, the image width should not exceed 139 cm. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. It is also compatible with Full HD 1080P and 4K (compressed).
