

Panasonic PT D9510E/U

PANASONIC PT D9510E/U

Brief Introduction

Beta 2.5

A brief introduction to the PT D9510E/U: The Panasonic DLP projector offers 10000 Ansi lumens, a contrast of 1000:1 550:1 Ansi and an XGA 1024 x 768 resolution. With the lens shift function, the projector can be positioned very freely. An image width of up to 871 cm is possible as the projector has 10000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 581 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Furthermore, the projector can play 1080P without any problems. On the market since 2001, the model is no longer offered by the manufacturer Panasonic. Unfortunately, we can no longer offer a replacement lamp for this model, neither original nor replica.
