

Panasonic PT L300U

PANASONIC PT L300U

The standard portable Panasonic PT L300U LCD projector has 800 Ansi lumens, a contrast of 700:1 and a 960 x 540 resolution. The integrated media player allows files to be played directly. The projector can illuminate a picture width of up to 287 cm thanks to its 800 Ansi lumens. In room light, however, the picture width should ideally be less than 191 cm. At just 28 decibels, the device is one of the quieter projectors. It came onto the market in 2003 and is no longer offered by the manufacturer Panasonic.
