With the PT L785E/U, manufacturer Panasonic offers a standard portable LCD projector with XGA 1024 x 768 resolution and a contrast of 500:1. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. Thanks to the brightness of 3200 Ansi lumens, a picture width of 493 cm is possible. With room lighting, the picture should be max. 329 cm wide. The model built in 2004 is no longer offered by Panasonic. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither original nor replica.
