

Panasonic PT-TMX380

PANASONIC PT-TMX380

A brief introduction to the Panasonic PT-TMX380. The short-throw LCD laser projector has an XGA 1024 x 768 resolution and a contrast of 3000000:1. The laser gives it a lifespan of 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. This projector has a projection ratio of just 0.46:1. For a 2 m wide image, the projector only needs to be 92 cm away from the screen. Playing 1080P is also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection.
