

PANSEBA AK-68

PANSEBA AK-68

The standard portable PANSEBA AK-68 LED LCD projector has 720 ANSI lumens, a contrast ratio of 10000:1 and an HDTV 1920 x 1080 resolution. The LEDs give the projector a light lifespan of up to 30000 hours, which is over 20.5 years if used for four hours a day. A built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. Since PANSEBA indicates the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The projector will be able to illuminate the 273 cm image width well. If room light is available, however, the image width should not exceed 182 cm. The projector has Airplay, Miracast Screen Mirroring support, which allows you to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. The model is also Full HD 1080P and 4K (compressed) compatible.
