PAZHONZ HY300

A brief introduction to the HY300: The Pazhonz Game-portable LED LCD projector offers 120 Ansi-Lumen, a contrast of 1500:1 and an HDTV 1280 x 720 resolution. The manufacturer states an LED lifespan of 30,000 hours, which would be the equivalent of over 20.5 years at 4 hours a day. The integrated media player allows you to play files directly. Horizontal and vertical keystone correction makes image setup a breeze. 120 ANSI lumens ensure that an image width of 111 cm is also possible. However, if room lighting is present, the image should not exceed 74 cm in width. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to mention is that the projector can be connected to external wireless speakers via Bluetooth. Playing 1080P and 4K (compressed) is also no problem for the projector. At just 25 decibels, the model is already very quiet compared to others.
