The standard Philips NeoPix 460 Smart LED LCD portable projector has 500 ANSI lumens, a contrast ratio of 2400:1 and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the service life is 30,000 hours, which, based on four hours? viewing per day, would amount to over 20 5 years. The projector is capable of illuminating a screen width of 227 cm. However, if there is ambient light in the room, the screen width should ideally not exceed 151 cm. Thanks to Google TV, the projector can be conveniently controlled via voice commands. As the projector recognises Chromecast, AirPlay and screen mirroring signals, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via Wi-Fi. Furthermore, thanks to its Bluetooth functionality, the projector can be flexibly paired with other speakers. Furthermore, the projector can play 1080p content without any issues.
