With the Panda, manufacturer Pico Genie offers a DLP LED projector with WXGA 1280 x 800 resolution. The lifespan of the LEDs is 30000 hours, which is over 20.5 years if enjoyed for four hours a day. The projector can illuminate a picture width of up to 227 cm with its 500 Ansi lumens. In room light, however, the image width should ideally be less than 151 cm. Thanks to the built-in 2800 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Even 1080P video signals are no problem for the projector. It was launched in 2019 and is no longer offered by the manufacturer Pico Genie.
