The PG10K LCD projector from Pico Genie has 10000 Ansi lumens, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. The lamp of the projector is specified with 5000 hours lamp life, which is over 6.8 years with a daily viewing time of 2 hours. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. 1016 cm image width, the projector will be able to illuminate well. The projector can manage rooms with residual light with a smaller image width, we recommend a maximum of 677 cm here. Even 1080P video signals are no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection.
