The Planar PD7010 DLP projector has 1000 Ansi lumens, a contrast of 2500:1 and an HDTV 1280 x 720 resolution. The lamp life is specified by the manufacturer as 4000 hours, which is over 5.5 years if enjoyed for two hours every day. Horizontal and vertical keystone correction makes setting up the picture childs play. The projector will be able to illuminate a picture width of 321 cm well. However, if room light is available, the picture width should ideally not exceed 214 cm. Furthermore, the projector can play 1080P without any problems. On the market since 2006, the model is no longer offered by the manufacturer Planar.
