Manufacturer Plus offers the U2 817, a standard portable DLP projector with SVGA 800 x 600 resolution and a contrast of 1500:1 (full on/off). The projector can illuminate an image width of up to 337 cm thanks to its 1500 Ansi lumens. In room light, however, the picture width should ideally be less than 225 cm. On the market since 2003, the model is no longer offered by the manufacturer Plus. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
