

Polaroid U-100

POLAROID U-100

The Polaroid U-100 3D LED DLP projector has 3000 Ansi lumens and a WXGA 1280 x 800 resolution. The manufacturer Polaroid specifies a service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. Thanks to the short-throw projection ratio of just 0.2:1, the projector does not stand still in the room. For a 2m wide image, the projector only needs to be 40 cm away from the screen. The projector can also play 1080P and 3D without any problems. It was launched in 2019 and is no longer offered by the manufacturer Polaroid.

Brief Introduction

Beta 2.5
