

Polaroid U-200

POLAROID U-200

Brief Introduction

Beta 2.5

The short-throw U-200 3D LED DLP has 3400 Ansi lumens and an HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 30,000 hours, which would be over 20.5 years with a daily viewing time of 4 hours. This projector has a projection ratio of just 0.2:1. For a 2 m wide image, the projector only needs to be 40 cm away from the screen. Playback of 1080P and 4K (compressed) as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently available can be recognized by the projector. The projector was launched in 2019 and is no longer sold by the manufacturer.
