

projectiondesign F22 sx+

PROJECTIONDESIGN F22 SX+

The standard portable F22 sx+ BrilliantColor DLP has 3000 Ansi lumens, a contrast of 2500:1 and an SXGA+ 1400 x 1050 resolution. The integrated lens shift gives freedom when positioning the projector. The projector can illuminate an image width of up to 477 cm well thanks to the 3000 Ansi lumens. In room lighting, however, the image width should ideally be less than 318 cm. The model is also Full HD 1080P compatible. With an operating noise of just 24 decibels, the model is very quiet compared to others. On the market since 2009, the model is no longer offered by the manufacturer projectiondesign, but is still a popular projector in our database.
