

projectiondesign F35 WQXGA

The projectiondesign model F35 WQXGA is a DLP projector with WQXGA 2560 x 1600 resolution and a contrast of 8000:1. An image width of up to 702 cm is possible, if the image width is smaller (we recommend max. 468 cm), rooms with residual light are also no problem. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. Playing 1080P is also no problem for the projector. This model is no longer offered by projectiondesign.

Brief Introduction

Display Type
