

# PURSHE HI-02

PURSHE HI-02

The PURSHE model HI-02 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. The lifespan of the LEDs is 50000 hours, which is the equivalent of over 34.2 years at 4 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector will be able to illuminate a picture width of 203 cm well. If room lighting is available, however, the picture width should ideally not exceed 135 cm. The projector has DLNA, Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Furthermore, the projector can play 1080P and 4K (compressed) without any problems, and even has the option of projecting HD 1080P and 4K (compressed) Blu-rays onto the ceiling thanks to 360° projection.
