

PUTRIMS K12

PUTRIMS K12

Brief Introduction

Beta 2.5

The PUTRIMS model K12 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 20000:1. The LEDs give the projector a lifespan of 30000 hours of light, which is over 20.5 years at four hours of enjoyment a day. The projector will be able to illuminate the 321 cm image width well. If there is room light, however, the image width should not exceed 214 cm. Thanks to Google TV, the projector can be conveniently controlled by voice command. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via Bluetooth. Video signals 1080P and 4K (compressed) are also no problem for the projector.
