

QIGEEKU A40

QIGEEKU A40

Brief Introduction

Beta 2.5

The micro-portable A40 LED LCD projector from QIGEEKU has 500 ANSI lumens, a contrast ratio of 10,000:1 and HDTV 1920 x 1080 resolution. The service life is 30,000 hours thanks to the LEDs, which is the equivalent of over 20.5 years at 4 hours a day. A built-in horizontal and vertical keystone correction brings freedom when setting up the projector. An image width of up to 227 cm is possible. However, the image should be smaller in room light. We recommend a maximum of 151 cm. The model recognises Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers using the Bluetooth function. The projector can also handle video signals 1080P and 4K (compressed).
