

Salange P92 Max

SALANGE P92 MAX

The Salange P92 Max model is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. The LEDs give the projector a light lifespan of up to 30,000 hours, which is over 20.5 years at four hours of use per day. The horizontal and vertical keystone correction provides flexibility when setting up. 400 ANSI lumens ensure that an image width of 203 cm is also possible. However, if room light is present, the image should be a maximum of 135 cm wide. The model recognises DLNA, Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. The projector can also handle video signals 1080P and 4K (compressed).
