

Salange X5AR Max

SALANGE X5AR MAX

Brief Introduction

Beta 2.5

The X5AR Max LED LCD projector from Salange has 800 ANSI lumens, a contrast ratio of 1500:1, and an HDTV resolution of 1920 x 1080. It is an LED projector with a light source lifespan of 30,000 hours, which would equate to over 20.5 years based on 4 hours of daily use. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. An image width of up to 227 cm is possible. However, in well-lit rooms, the image should be set to a smaller size. We recommend a maximum of 151 cm. The model supports AirPlay and Miracast screen mirroring, allowing you to stream high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another notable feature is that the projector's Bluetooth functionality enables it to connect to external wireless speakers. The model is also compatible with Full HD 1080p and 4K (compressed).
