

Sanyo PLC HP7000L

SANYO PLC HP7000L

The Sanyo PLC HP7000L LCD projector has 7000 Ansi lumens, a contrast of 2700:1 and an HDTV 1920 x 1080 resolution. The projector also offers a lens shift function that makes image adjustment child's play. The projector can illuminate images up to 850 cm wide thanks to its 7000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 567 cm. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals are no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. The model built in 2011 is no longer offered by Sanyo.

3 x 1,2" LCD TFT Panel
HDTV 16/9 Liquid Crystal Display
