

Sharp XV Z100

SHARP XV Z100

Brief Introduction

Beta 2.5

The Sharp model XV Z100 is a DLP projector with WVGA 854 x 480 resolution and a contrast of 2000:1. An image width of up to 321 cm is possible. However, the image should be smaller in room light. We recommend max. 214 cm. The model built in 2005 is no longer offered by Sharp. It should also be noted that, unfortunately, there are no longer any replacement lamps for the projector, neither originals nor replicas.
