The MICO ST LED DLP has 800 Ansi lumens, a contrast of 100000:1 and an HDTV 1920 x 1080 resolution. The manufacturer SIM2 specifies a service life of 30,000 hours, which converts to over 20.5 years at 4 hours of use. The integrated lens shift gives freedom when positioning the projector. With a projection ratio of just 0.675:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 135 cm away from the screen. Even 1080P video signals are no problem for the projector. The projector was launched in 2010 and is no longer sold by the manufacturer, but is still a popular projector in our database.
