

Sony VPL FHZ61 B/W

SONY VPL FHZ61 B/W

The Sony model VPL FHZ61 B/W is an LCD laser projector with WUXGA 1920 x 1200 resolution and a contrast of 500000:1. Due to the laser, the projector is specified with 20000 hours of light life, which is equivalent to over 13.7 years at 4 hours per day. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. The projector can illuminate images up to 726 cm wide thanks to its 5100 Ansi lumens. The projector manages rooms with residual light with a smaller image width, max. 484 cm is recommended. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. Playing 1080P is also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. At just 28 decibels, the device is one of the quieter projectors. The model built in 2018 is no longer offered by Sony.
