

Studio Experience Premier 30HD

Brief Introduction

Beta 2.5

The Home Cinema Premier 30HD DLP has 800 Ansi lumens, a contrast of 2000:1 and a WPAL 1024 x 576 resolution. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 287 cm is possible. However, the image should be smaller in room light. We recommend max. 191 cm. With only 29 decibels of operating noise, the model is already very quiet compared to others. The model is no longer offered by Studio Experience.

1 x Matterhorn DLP Chip
WPAL 16/9 Ti Digital Light Processing Chip
