

TCL A1

TCL A1

A brief introduction to the A1: the TLC LED LCD projector offers 403 ANSI lumens, a contrast ratio of 2000:1 and HDTV 1920 x 1080 resolution. Thanks to the LEDs, the projector has a light lifespan of up to 30,000 hours, which is the equivalent of over 20.5 years at 4 hours a day. Since TLC indicates the brightness of the projector in lumens, we have calculated an approximate Ansi-Lumen value in this case. A picture width of up to 204 cm is possible because the projector has 403 Ansi-Lumen. However, if room light is present, the picture should be a maximum of 136 cm wide. Thanks to Google TV, the projector can be conveniently controlled by voice command. The projector has Chromecast and screen mirroring support, which allows you to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via Wi-Fi. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Even video signals 1080P are no problem for the projector.

Brief Introduction Beta 2.5

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

403 / 360 Iso Lumen

179 Lux (200 cm Screen width)
