TECHNAXX TX-127

With the TX-127, manufacturer Technaxx offers an LCD LED projector with HDTV 1280 x 720 resolution and a contrast of 1000:1. The service life of the LEDs is 40,000 hours, which is over 27.4 years with a daily viewing time of 4 hours. As Technaxx specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. A picture width of up to 111 cm is possible, as the projector has 120 Ansi lumens. However, if room light is available, the picture should be max. 74 cm wide. Even 1080P video signals are no problem for the projector.
