

ThundeaL RD860

THUNDEAL RD860

The ThundeaL model RD860 is an LED projector with VGA 640 x 360 resolution and a contrast of 1000:1. The manufacturer specifies an LED service life of 50000 hours, which equates to over 34.2 years at 4 hours of operation. Including an integrated media player with which files can be played directly. As ThundeaL specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 120 Ansi lumens ensure that a picture width of 95 cm is also possible. However, if room light is available, the picture should be a maximum of 63 cm wide. Furthermore, the projector can play 1080P without any problems.
