

TOPTRO A1

TOPTRO A1

The A1 LED LCD projector from TOPTRO has 1000 ANSI lumens, a contrast ratio of 20000:1, and HDTV 1920 x 1080 resolution. Manufacturer TOPTRO specifies a service life of 30,000 hours, which would be equivalent to over 20.5 years at 4 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The brightness of 1000 ANSI lumens allows for an image width of 321 cm. In room lighting, the image should be a maximum of 214 cm wide. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Even 1080P and 4K (compressed) video signals are no problem for the projector.

Brief Introduction Beta 2.5
