

TOPTRO HY320

TOPTRO HY320

The TOPTRO model HY320 is an LCD LED projector with HDTV 1280 x 720 resolution and a contrast of 1500:1. It is an LED projector with 30000 hours of light life, which is the equivalent of over 20.5 years at 4 hours per day. The integrated media player allows files to be played directly. The projector can illuminate images up to 144 cm wide thanks to its 200 Ansi lumens. In room light, however, the picture width should ideally be less than 96 cm. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Video signals 1080P and 4K (compressed) are also no problem for the projector. At 25 decibels, the projector is very quiet compared to other projectors.
