

TOPTRO TR26

TOPTRO TR26

The TOPTRO model TR26 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 12000:1. Due to the LEDs, the projector has a light life of up to 30,000 hours, which is equivalent to over 20.5 years at 4 hours per day. As TOPTRO specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 273 cm is possible. In room light, however, the image should be smaller. We recommend max. 182 cm. As the projector recognizes Chromecast, Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Furthermore, the projector can play 1080P without any problems.
