

TOPVISION Projector 7000

TOPVISION PROJECTOR 7000

A brief introduction to the Projector 7000: The TOPVISION standard portable LED LCD projector offers 420 Ansi lumens, a contrast of 2000:1 and an HDTV 1280 x 720 resolution. The manufacturer TOPVISION specifies a service life of 90000 hours, which is over 61.6 years with a daily viewing time of 4 hours. As TOPVISION specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. An image width of up to 208 cm is possible. In room light, however, the image should be smaller. We recommend max. 139 cm. The projector has optional Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Even 1080P playback is no problem for the projector.
