

TOSHIBA

ET1

Home Cinema Projector

Enjoy the magical experience of cinema and big screen action in the comfort of your own home.

Bring movies to life, fight life-size villains on your games console or enjoy the big match atmosphere in the comfort of your living room.

TOSHIBA

The Toshiba ET1 Home Cinema Projector delivers stunning images up to 100 inches* in size.

It offers highly flexible connectivity for all your AV equipment including a standard SCART socket and Component Video Input.

Faroudja DCDi® picture processing technology delivers stunning image reproduction, dramatically reduces jagged edges to detail and minimizes picture defects.

Portability

The ET1 is light and portable, enabling you to use it in any room around the home, or even take it to a friend's house to watch the big match or an action-packed movie.

DCDi

DCDi® (Directional Correlation De-interlacing) by Faroudja converts interlaced images to progressive images, improving line detail and making movement smooth and lifelike. "Bad edits" on original film footage are detected and corrected, resulting in pin-sharp images with minimum defects.

Sound

The ET1 has its own on-board stereo sound with 3D surround sound option, allowing you to use it without the need for a separate hi-fi system.

Connectivity

SCART
S-Video
Composite Video
Component Video
Audio Input L & R
PC 15 Pin Input (VGA)
RS-232 Control Input

Technical Specifications
