OPTOMA UHZ58LV

Brief Introduction

Beta 2.5

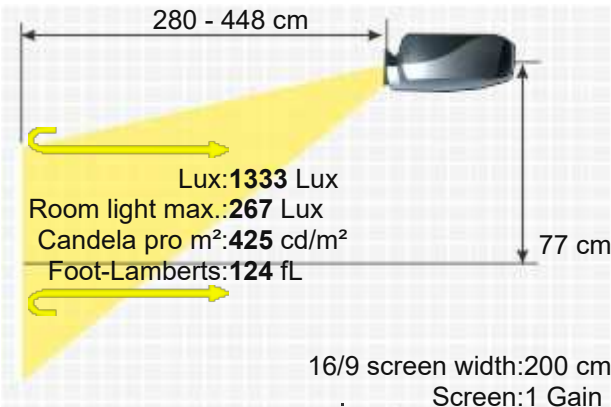

Brief overview of the Optoma UHZ58LV. This DLP laser projector features an HDTV resolution of 1920 x 1080 and a contrast ratio of 3,000,000:1. The manufacturer specifies a laser lifespan of 30,000 hours, which equates to over 20.5 years based on four hours of use per day. It includes lens shift and keystone correction functions, which provide flexibility during installation. An image width of up to 477 cm is possible. However, in brightly lit rooms, the image should be set to a smaller size. We recommend a maximum of 318 cm. Playing 1080p and 3D content is also no problem for the projector, and thanks to its 360° projection capability, it can even project HD 1080p Blu-rays onto the ceiling.

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
