

Valerion VisionMaster Pro 2

VALERION VISIONMASTER PRO 2

Top

The standard portable Valerion VisionMaster Pro 2 3D DLP projector has 3360 ANSI lumens, a contrast of 4000:1 and a UHD (4K2K) 3840 x 2160 resolution. The integrated media player allows you to play files directly. Since Valerion indicates the brightness of the projector in lumens, we have calculated an approx. Ansi-Lumen value in this case. A picture width of up to 589 cm is possible because the projector has 3360 Ansi-Lumen. However, if room light is present, the picture should not be wider than 393 cm. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. Since the projector recognises Chromecast, Airplay, Miracast Screen Mirroring signals, it is possible to play videos in high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via Wi-Fi. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P and 4K compatible.

1 x 0,47" DMD DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Projector	3360 / 3000 Iso Lumen	Screen	1493 Lux (200 cm Screen width)
