The standard portable Vankyo Performance V700 Neo LED LCD projector has 400 ANSI lumens, a contrast ratio of 1000:1 and HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 20,000 hours, which equates to over 13.7 years at 4 hours per day. The projector can illuminate a screen width of 203 cm. However, if there is ambient light in the room, the image width should not exceed 135 cm. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. Another extra feature worth mentioning is that the Bluetooth function allows the projector to be connected to external wireless speakers. Even 1080P video signals are no problem for the projector.
