A brief introduction to the Vidikron Vision Model 110. The home cinema DLP projector has an HDTV resolution of 1920 x 1080 and a contrast of 4000:1. The projector can illuminate a picture width of up to 540 cm thanks to its 2826 Ansi lumens. In room lighting, however, the image width should ideally be less than 360 cm. The projector can also display 1080P without any problems. It was launched in 2006 and is no longer offered by the manufacturer Vidikron, but is still one of the most popular projectors.

3 x 0,95" HD2+ DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Projector

2826
