

Viewsonic PJD7720HD

VIEWSONIC PJD7720HD

The Viewsonic model PJD7720HD is a DLP projector with HDTV 1920 x 1080 resolution and a contrast of 22000:1. The manufacturer specifies a lamp life of 10000 hours, which is over 13.7 years if enjoyed for two hours a day. The model offers a microphone jack plug and 10W speakers, so no additional audio devices are required for presentations or training courses. The projector will be able to illuminate a screen width of 575 cm well. If room light is available, the image width should ideally not exceed 383 cm. A smartphone with MHL connection can be connected directly to the MHL/HDMI port to perform 1080p / 60 Hz image mirroring (screen mirroring). The projector can also play 1080P and 3D without any problems. The model built in 2016 is no longer offered by Viewsonic, but is still very popular in our projector database.

Brief Introduction Beta 2.5

Display Type

 1 x DC3 DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 3200

Screen 1422 Lux (bei 200 cm Screen)
