

Viewsonic PJ106D

VIEWSONIC PJ106D

Brief Introduction

Beta 2.5

The Viewsonic model PJ106D is a DLP projector with SVGA 800 x 600 resolution and a contrast of 300:1. The projector also offers an integrated media player with which files can be played directly. Thanks to the built-in rechargeable battery, the projector does not require a power supply for 5 hours, making it spontaneous and easy to set up anywhere. On the market since 2006, the model is no longer offered by the manufacturer Viewsonic, but is still one of the most popular projectors.
