VIEWSONIC PJD5112

## Brief Introduction Beta 2.5

A brief introduction to the Viewsonic PJD5112. The standard portable DLP projector has an XGA 1024 x 768 resolution and a contrast of 2800:1. The manufacturer specifies a lamp life of 3500 hours, which is over 4.8 years if enjoyed for two hours a day. The projector can illuminate a picture width of up to 444 cm with its 2600 Ansi lumens. In room light, however, the picture width should ideally be less than 296 cm. 1080P playback is also no problem for the projector. With an operating noise of just 30 decibels, the model is very quiet compared to others. The projector was launched in 2009 and is no longer sold by the manufacturer.
