VIEWSONIC PJD6352

The Viewsonic PJD6352 standard portable 3D DLP projector has 3500 Ansi lumens, a contrast of 15000:1 and an XGA 1024 x 768 resolution. The lamp life is specified by the manufacturer as 5000 hours, which is over 6.8 years with a daily viewing time of 2 hours. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 515 cm is possible, if the image width is smaller (we recommend max. 343 cm), rooms with residual light are also no problem. A smartphone with MHL connection can be connected directly to the MHL/HDMI port for 1080p / 60 Hz image mirroring (screen mirroring). The projector can also play 1080P and 3D without any problems. The projector was launched in 2015 and is no longer sold by the manufacturer.
