

# Viewsonic Pro8600

VIEWSONIC PRO8600

## Brief Introduction

Beta 2.5

The Pro8600 3D BrilliantColor DLP projector from Viewsonic has 6000 Ansi lumens, a contrast of 15000:1 and an XGA 1024 x 768 resolution. The integrated media player allows files to be played directly. The projector is equipped with a microphone jack plug and 10W speakers, so no additional speakers are required for presentations or training courses. An image width of up to 675 cm is possible as the projector has 6000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 450 cm. Playing 1080P is also no problem for the projector. The model built in 2013 is no longer offered by Viewsonic.
