

Viewsonic X2000B-4K Laser UST

Brief Introduction

Beta 2.5

The Viewsonic model X2000B-4K Laser UST is a laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 3000:1. Due to the laser, the projector is specified with 20000 hours of light life, which is over 13.7 years if enjoyed for four hours a day. The integrated media player can play files directly. As it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide picture, the projector only needs to be 44 cm away from the screen. As the projector recognizes screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. It is also Full HD 1080P and 4K compatible. On the market since 2022, the model is no longer offered by the manufacturer Viewsonic.
