The Viewsonic X2000L-4K Laser UST laser projector has 2000 Ansi lumens, a contrast of 3000:1 and a UHD (4K2K) 3840 x 2160 resolution. Due to the laser, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours per day. The integrated media player can play files directly. This projector has a projection ratio of just 0.22:1. For a 2 m wide image, the projector needs to be just 44 cm away from the screen. As the projector recognizes screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via Wi-Fi. Another extra is that the Bluetooth function allows the projector to be connected to external wireless speakers. The model is also Full HD 1080P and 4K compatible. It was launched in 2022 and is no longer offered by the manufacturer Viewsonic.
